COMPANY PROFILE

Arc Rite Limited was established in 2006 and has quickly become the Premier Welding Distributor in Trinidad and Tobago.

Supported by a wealth of knowledge and experience in the Welding sector, the Company has earned the reputation as the Top Welding Distributor on the island, by supplying the highest quality products in a timely manner, at the most affordable prices, whilst ensuring efficient and reliable customer service.

Strategically located in the southern region of Trinidad, Arc Rite provides an impressive range of Welding and Cutting Equipment, Power Tools, Welding Safety, Accessories and Consumables, amongst others, to a variety of valued end users.

Our strength definitely lies in the service our competent and dedicated Team provides. Over the years we have fostered strong relationships with our customers and suppliers, and we aim to ensure all needs are met through constant communication, research and development. Globally recognized Manufacturers such as Lincoln Electric, Victor Thermadyne, Makita Power Tools, Razorweld and Washington Alloy, to name a few, have placed their trust in us to represent them and the full line of items they offer.

WELDING EQUIPMENT

Arc Rite Ltd is an authorized distributor of Lincoln Electric, the World's Welding Experts. Lincoln is the world leader in design, development and manufacture of arc welding products, robotic arc welding systems, plasma and oxyfuel cutting equipment. They also hold a leading position in the brazing and soldering alloys market.

Arc Rite Limited carries an impressive range of Welding Equipment.

These include:

Mig Welders

Tig Welders

Stick Welders

Engine Driven Welders

Inverters

Arc Rite Limited carries in our Inventory, the highly acclaimed Razorweld Brand. The line is manufactured by Jasic Technologies America Inc, known for its High Quality welding and Cutting Equipment.

After analyzing the Market, a need for a small and portable welding machine was evident. These Razorweld machines have proven to be superbly functional, ergonomic and cost effective. A strong commitment to product development, utilizing the latest technology and service has provided Customers with various choices from a comprehensive range of quality Mig, Tig, Arc and Plasma cutting machines. Parts are also readily available to the home user or for heavy industrial applications.

All the machines sold are manufactured to, and comply with, the latest Industrial standards, thus providing the operator assurance and certainty of safety, reliability, duty cycle performance and quality.
