BLACK PAW®

PADLOCK 38MM ALUMINIUM KEYED ALIKE

Secure your industrial settings with our premium Safety Lockout Padlocks, designed specifically for enhanced security and durability. This set of 10 padlocks, all keyed alike for convenience, features a robust 38mm aluminum body that ensures resilience and corrosion resistance in harsh environments. The steel shackle provides superior cut resistance, making it an ideal choice for locking out valves, electrical panels, and other critical equipment.

- High Strength Material:
- Sized Perfectly for LockOut Boxes
- Keyed Alike
- Durable
- Wide Range of Applications:
- Multiple Color Options:

Material: High-strength aluminum body paired with a hardened steel shackle for maximum security.	✓	
Size: 38mm body with a precisely engineered shackle thickness to fit most lockout tagout devices.	✓	
Keyed Alike: One key conveniently opens all ten locks, simplifying the lockout process and reducing the number of keys needed on site.	✓	
Durability: Designed to withstand the rigors of industrial environments, including resistance to chemicals, temperature extremes, and physical wear.	✓	
Applications: Perfect for a wide range of uses, including electrical panels, machinery, isolation points, and valve lockouts.	✓	
Color Options: Available in multiple colors to support lockout tagout safety programs and help prevent accidental activation of dangerous equipment.	✓	
Ideal for: Industrial facilities requiring robust lockout systems to maintain safety and comply with regulatory standards. Perfect for electricians, maintenance teams, and safety coordinators. Ensure safety and compliance in your workplace with these dependable and durable lockout padlocks.	✓
